

The last years the agricultural sector has seen many changes. Profits per unit are decreasing due to liberalization and globalization. Many farmers respond by increasing the scale of their operations. In order to benefit from state-of-the-art techniques growers need to look beyond their daily operations to assess the potential of new, state-of-the-art growing and management techniques. This course will help you in doing both.

FRUIT AND VEGETABLE PRODUCTION

CONTENTS

Depending on the group's objectives the course will cover:

- ⇒ Tomato
- ⇒ Paprika
- ⇒ Cucumber
- ⇒ Strawberry

Examples of subjects to be covered:

- ⇒ Markets, supply windows and marketing
